OUR VISION

To build a generation of empowered, employable and purpose-driven Nigerian graduates who actively contribute to the development of their communities and nation.

OUR MISSION

GETWORK Nigeria exists to equip young graduates with the skills, networks, experiences and opportunities they need to transition confidently from graduation to meaningful work and purposeful contribution.
We achieve this by creating access to volunteering, mentorship, career development, professional networking, employment opportunities and community engagement, while encouraging graduates to move beyond waiting for opportunities to becoming active contributors and creators of value.

OUR CORE BELIEF

We believe every graduate has something valuable to contribute, and that volunteering, learning, connection and purposeful action can open doors to meaningful opportunities.

Nigeria's Youth Employment Crisis

Millions of graduates enter Nigeria's labour market annually, yet many lack the practical skills employers demand.
